Dear Members of the Qualicum Beach Streamkeepers,

Thank you very much for your ongoing participation and fourth year of commitment to the Community Watershed Monitoring Network (CWMN). It has been a consistent pleasure to work with your dedicated and passionate volunteers.

Your actions in this program and all of your projects to protect the watersheds of Qualicum Beach are admirable. The high quality data that you have gathered for the CWMN will help the community, Ministry of Environment and Regional District of Nanaimo better understand the health of these watersheds and the impacts on them from human activities. The information that you have gathered will be used to identify trends, prioritise areas and guide actions to protect the watershed.

The hard work and dedication you have contributed to the monitoring program is greatly appreciated. Your stewardship activities are invaluable to the protection of our water resources and the health of our environment. Please find enclosed a cheque in recognition of your participation in the CWMN in 2014. We greatly appreciated the time all your volunteers have spent working on this project and would like to say a special thank you to Gord Almond and John Phillips.

We look forward to continuing to work with you to protect the watersheds of the Qualicum Beach area.

Kind regards,

Alex King
